1. Table of non-significant effects

1.1 Purpose of this appendix

1.1.1 This PEI Report appendix provides a summary of the non-significant residual effects that are described in **PEI Report Volume 1, Chapter 15.1: Air Quality**.

Table 1-1 Summary of non-significant effects

Receptor	Sensitivity (Value)	Description of Impact	Magnitude of Impact	Residual Effect Category
Human Amenity	High: receptors in the vicinity of the DCO Site can expect to enjoy a high level of amenity. Includes diminishing effects on appearance, aesthetics and value of property.	Dust impacts during Scheme construction and decommission.	Negligible	Negligible
Human Health	High: public present for >8 hours per day. Includes residential receptors, residential healthcare facilities and educational establishments.	Dust impacts during Scheme construction and decommission.	Negligible	Negligible
Ecology	Low: Closest site approximately 1,500m from the boundary.	Dust impacts during Scheme construction and decommission.	Negligible	Negligible
